

PRINT MANAGEMENT

WHAT IS PRINT MANAGEMENT?

Print Management provides a central administration point for sharing printers on a network and managing print server and network printer tasks. It can help optimize print processes, reduce unnecessary printing and cut down on wasted supplies. Check out the options below to ensure you set your workplace up for success.

REPORTING

MONITORING

UPGRADES

DIAGNOSTICS

OPTION 1: PRINTER DATA COLLECTION AGENT MONITORING

A system for remote monitoring comprised of powerful, yet easy-to-use, software. It is designed to monitor, report, and manage fleets of printers, copiers, fax machines, and multi-function peripherals. With a simple download onto your network, the Printer Data Collection Agent (DCA) will remotely collect and store all of your printing devices' diagnostic data, helping to identify problems before they occur and pinpoint overworked or under-utilized devices.

Key features include:

- 10-minute software installation
- Secure data transfers—HIPAA compliant and more.
- Synchronous out-bound only data transfer—completely secure
- Automated real-time snapshot of fleet including number of printers, types, meter reads, service alerts, general status
- Simplified supplies ordering
- Reports for managing usage, errors, toner levels, mono vs. color device utilization

PRINT MANAGEMENT

OPTION 2: HP WEB JETADMIN

HP Web Jetadmin (WJA) is an award-winning print management system that will control your print fleet and work within your network.

Whether your enterprise is small or large, easy-to-use HP WJA offers a simple, web-based interface to install, configure, troubleshoot, and manage both HP and non-HP networked and PC-connected print devices.

OPTION 3: PAPER CUT PRINT LOGGER

PaperCut™ Print Logger is a free application for Windows systems designed to provide real-time activity logs. Some of the tracked information includes: time of print, name of the user, number of pages, paper size, color mode, and more!

Print logs are available in HTML, CSV, or Excel formats.

OPTION 4: PRINTFLEET QUICKASSESS

A rapid data collection tool for simple and accurate assessments of your customer's print environment. Based on the latest version of PrintFleet's industry-leading Data Collection Agent (DCA). Features include:

- Detailed snapshot of the print environment, it gathers data for billing, supply and service management
- Enables a comparison of data from two separate snapshots
- Allows you to filter data and create unique views for your assessment needs
- Generates data to export in a simple CSV file
